

**COSTA MESA SANITARY DISTRICT
DIRECTOR**

JAMES FERRYMAN

OCCUPATION: Director, Costa Mesa Sanitary District

The Costa Mesa Sanitary District is in the process of moving their operations to a new location that will save the district and the rate payers thousands of dollars annually. Two years ago we introduced standardized trash cans that have been a big success in keeping Costa Mesa clean and beautiful. These actions were the direct result of our strategic planning over the last four years.

The Costa Mesa Sanitary District has many special programs that benefit the residents greatly. We have the large item pickup, Christmas tree recycling program, and hazardous waste pickup to name a few. Our rates are still reasonable even though we offer so many special programs.

I represent Costa Mesa on the Orange County Sanitation Board of Directors and was recently elected it's Vice-Chairman. This regional agency is a major player in protecting the environment and in the treatment of waste for twenty five cities and special districts in Orange County.

I would like to continue my work on the Costa Mesa Sanitary Board and ask you for your support on November 2, 2004.

Jim Ferryman
Director, Costa Mesa Sanitary District
